George M. Schuehle, Aged Pioneer, Died Early Last Sunday Morning

Mr. George M. Schuehle died at the home of his son, August Schuehle, at this place at 12:35 o'clock Sunday morning, August 10, 1913, of old age. He was buried in the new cemetery at 5 o'clock p. m. of the same day. His pastor, Rev. A. Falkenberg, of the Hondo Lutheran church, conducted the funeral service.

The deceased was probably the oldest person in Medina County, being 98 years, 7 months and 11 days of age at the time of his demise. He was born at Zaisenhagen, Baden, Germany January 1, 1815. He was married to

Miss Elizabeth Keim at Berwangen, Germany, in 1841, and came to America with his family (except an elder daughter who remained in Germany) in 1875 and settled at Quilhi where his companion died some twenty-odd years ago. Ten children were born to this union, five of whom are now dead. The surviving ones are Henry, Andrew and August Schuehle, Mrs. Louisa Kieffer and Mrs. H. H. Balzen. He is also survived by thirty-two grandchildren and forty-two great grandchildren. It was given to Mr. Schuehle to live

to a much riper age than is allotted to most men. He had lived out almost an average life time in Europe before coming to this country where he yet lived to see some marvelous changes. Although his health has been generally good he has not been very active for the past fifteen or twenty years and has been the constant care of his children.

He was a good citizen and a good man. He will be sadly missed by those who have loved and cared for him these many years. Peace to his ashes.

Mrs. M. A. Griffis.

Mrs. M. A. Griffis, who was making her home with her son, J. W. Griffis, died at 12 o'clock Sunday night, August 10, 1913, after an illness of several weeks. The body was shipped to her former home at Italy, Texas, Monday evening for interment.

The deceased was 69 years of age and is survived by several children, one of whom, J. W. Griffis, has made his home here for several years.

The bereaved ones have the sympathy of this entire community.

Ignatz Deckert.

D'Hanis, Texas, Aug. 11.—Died at 3 a. m. Monday morning, Ignatz Deckert, age 51 years, 6 months. Mr. Deckert was taken suddenly ill at an early hour this morning. His funeral was held at 5 o'clock Monday evening from St. Dominick's Church. He was a member of Hermann Sons Lodge of this City, and his lodge attended the funeral in a body.

THE NEW IDEAL OF A DISTINGUISHED CAR

THE HUDSON SIX 54, \$2250—SEVEN-PASSENGER

HERE now is a car which typifies the ideals of the time. This streamline body—this long, sloping hood—this absence of angle at the dash—this low-hung chassis—these crowned fenders—this placing of extra tires so the front doors are left clear—these things belong to the car of today.

The consensus of the world's best opinion is that this type of car marks the coming ideal car. These are radical changes but they are coming as surely as foredooms came—and as suddenly.

All the best foreign cars—English, French and German—will this year exhibit exclusively this new streamline body. And all men know that what they adopt in body design becomes the world-wide vogue.

Our designers have added a hundred minor effects. They have Americanized—have Hudsonized—the type. So the car is distinctive. There will be no other just like it. But it embodies what we regard as the highest conception of the modern trend in bodies.

And we believe that every connoisseur will consider this new HUDSON Six the handsomest car exhibited.

ENGINEERING PAUSES

We can claim in this car no great advance as regards fine engineering and no HUDSON owner expects it. Fine engineering has limits. For the past four years Howard E. Coffin and his able engineers have given their best to the HUDSON. Last year they

brought Sixes pretty close to perfection. So close that the HUDSON Six jumped in one year into the foremost rank among Sixes.

These men have worked out in this new-model car a vast number of minor engineering improvements. They have added scores of new mechanical features—some of them quite important. But we never expect to build a much better chassis than we built in our last year's Six.

This year's advances lie mainly in beauty, in comfort, in conveniences, in room. We have combined the best in lines, finish and equipment with the best in engineering. We have succeeded in making the HUDSON Six the masterpiece it is.

NOW THE IDEAL CAR

We now feel that this HUDSON 54 offers the utmost in every wanted feature. It has the staunchness of steel Pullmans. It has the comfort of Turkish lounging chairs. It has the speed of express trains. It is free from all the troubles which annoy the inexperienced.

No man knows how to build a car more handsome and impressive. No conveniences are absent, no modern features lacking.

And all these things are here included in a Six 54, with seven-passenger body, at the record price of \$2250 [f. o. b. Detroit, Michigan].

THE NEW FEATURES

These are among the new features

we bring out in this model. No mention is here made of the countless features in previous HUDSON models which we still retain.

Seven-passenger body.

135-inch wheelbase.

Left side drive. Right hand control.

36x4½-inch tires.

Extra tires carried—as never before—

ahead of the front door. This leaves

both front doors clear.

Four forward speeds.

Pure streamline body.

Low-hung body.

No angles at the dash.

Wide tonneau doors.

Gasoline tank in dash.

Electric self-cranking, with the rapid

type of the Delco system built especially for this car.

Powerful electric lights with dimming

attachment for city driving. They also act as ordinance lights.

Extra seats in tonneau fold into back

of front seat, entirely out of the way.

Jeweled magnetic speedometer in dash,

with new concealed noiseless gears.

Every operation and control placed

within reach of the driver's hand.

Gasoline and oil control, lights and

starter.

Individual Yale lock and ignition con-

trol, prevents theft of car.

Rain-vision windshield built as part

of the car.

Genuine Pantasote top. Curtains that

are carried in the top can be instantly

adjusted.

Electric horn—trunk rack—tire hold-

ers—license carriers—everything.

More About Clothes.

Joe Boehmer and Austin Callan have both promised to attend the big meeting at Fort Stockton in August, but only one of them will be seen at a time, as they have but a single suit between them. Uvalde Leader-News.

It's a base canard. I have half a dozen suits, and while I have not promised to be at Fort Stockton and make that meeting a success by the delivery of my speech, I am amply able to loan Callan and Hondo Davis a couple of suits each, so they may go.—Eagle Pass News-Guide.

This matter of the sartorial unpreparedness of the brethren of the press has been the fly in the ointment of Western journalism for many years. From the unbiased and disinterested vantage point of the favored section in which we live a life of luxury and ease, and in which clothing is no object, so to speak, we have reached the sad and inevitable conclusion that there is a dearth of editorial raiment in the West. All the available data goes to show that there is but one serviceable suit at the beck and call of the brethren in all that vast, desolate region lying to the west of a line drawn from Ballinger southward to the Rio Grand—assuming that anyone cares to draw such a line. It will be noted that Brother Boehmer in the above makes unequivocal claim to half a dozen suits. The very extravagance of this claim invests it with an air of suspicion, and the fact that Boehmer is a member of the legislature lends plausibility to the fear that he has lost that pristine veracity which is the dominant characteristic of the normal Western editor, be he ever so devoid of clothes. And his gleeful and voluntary offer to loan a couple of suits each to his arch-enemies, Callan and Davis, makes it practically certain that if he really has six suits, at least five of them are law suits.—Center Point News.

But speaking of clothes, we'll bet Joe Boehmer hasn't surplus raiment enough to clothe Austin Callan's modesty, not to mention our own. Joe's loud talk is like the tunes a little boy whistles in the dark!

THE thing we long for that we are
For one transcendent moment.
—Lowell.

I am promised infinite power to work and whenever I have trusted it fairly and squarely I have found that the promise was true.—E. E. Hale.

If a man find himself with bread in both hands, he should exchange one loaf for some flowers of the narcissus, since the loaf feeds the body indeed, but the flowers feed the soul.—Mahomet.

It is good to do battle, to suffer, to be thrown overboard and left to save ourselves. What we lose in comfort we gain in energy, and energy is the most precious of man's weapons.—Charles Wagner.

THE Hondo Anvil Herald has commenced the issuance of its twenty-eighth volume. Congratulations to Editor Davis, who has made the Anvil Herald one of the most interesting weeklies in Texas.—Houston Post.

An Everyday Cake

Here is a simple and inexpensive cake that can be varied in many ways with different frostings and icings. It looks a little nicer baked in a tube pan, but will be equally as good baked in a square loaf.

K C Gold Cake

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

2 cup butter; 2 cup sugar; yolks of 4 eggs, beaten light; 1 cup flour, less 2 level tablespoons; 1 level teaspoonful K C Baking Powder; 2 cup milk; grated rind of 1 orange.

Sift flour and baking powder together three times; cream butter and sugar, beat yolks of eggs, and these to creamed mixture, and lastly add the moisture and flour alternately, beating better until smooth. Gold Cake can only be made successfully by beating yolks of eggs, very, very creamy and light lemon colored, using a rotary beater. The rotary beater is the only beater that will do justice to the yolks of eggs. The beating kills all egg taste and improves the texture of the cake.

Cocoanut Frosting

Beat the whites of 2 eggs dry; gradually beat in half a cup of sifted confectioner's sugar and continue the beating until the frosting is smooth, thick and glossy; then beat in grated cocoanut, fresh or prepared, and spread upon the cake. This frosting is made thick by beating rather than by sugar.

Save this recipe. You will want to use it frequently. Or better, send us the colored certificate packed in each 25-cent can of K C Baking Powder and we will mail you "The Cook's Book" containing this and 89 other baking recipes equally good—all by Mrs. Hill. James Mfg. Co., Chicago.

To The Public

Several families obtain their drinking water from a surface well situated upon the banks of what is known as the New Fountain waterhole.

At times water taken from this well emits an odor and has a taste that is nauseating, and upon investigation no decaying matter could be found in it.

For more than a year boys from Hondo have converted this water-hole into a bathing resort.

We have requested them to stay out, stating our reasons. While a number have complied, others persist in making themselves obnoxious, having the impertinence to tell us that it is public property and we cannot stop them. And permit us to add that some who are not boys but men.

Some years ago a land owner left this waterhole for a public watering place but not for a public bathing resort.

Upon being requested to do so the parents of a greater number of these bathers have exercised their authority forbidding them to come again (thanks to those friends manifesting a regard for our personal welfare) while others not only permit their boys to continue bathing here but encourage them to disregard our wishes in this matter.

It is remarkable that any public spirited citizen would lend encouragement to the violation of a common law.

One person remarked that he had no further desire to bathe, that the water was unfit anyhow, and yet we are compelled to drink this same water after filtering through a few feet of earth. Will not some one suggest a remedy for terminating a long drawn out imposition?

We do not want any more bathing in the New Fountain water-hole.

LOUIS METZGER,
E. D. NEUMANN.

Another reason the farmer is independent is that he doesn't need to take a vacation to get plenty of exercise in the open air.

Make John A Business Man

Mary A Business Woman.

Most parents did not have the advantages of a Business Training at their door, and are not satisfied to see their sons and daughters go through life as they have without this training.

They want to see their sons become bright-eyed, keen, alert business men, able to figure rapidly and accurately, to spell well, to write a good hand; to be able to draw up notes, deeds and mortgages. They want to see them in business for themselves, or on a good salary as bookkeeper or office manager.

They want to see their daughters obtain a salary-earning education that will make them independent, or that will enable them to use wisely anything which they might have bequeathed to them. They want their daughters to have an insurance against any misfortune which might come.

It is to this class of parents that SAN ANTONIO BUSINESS COLLEGE appeals most strongly.

Send us that son and that daughter, and if there is a man in the boy or a business woman in the girl we will surely develop it.

Write today for catalogue, terms and pictures of successful graduates. Address: H. C. Mitchell, President, SAN ANTONIO BUSINESS COLLEGE, San Antonio, Texas.

Toward the last of the game B. Koch, who was delivering the pill for D'Hanis, weakened and the Hondo lads took advantage of such an opportunity. Our boys are always ready and willing to try, whether they win or lose, bearing in mind that one has to be the winner, unless it be a tie. But not a necktie.

PRactical BAKING LESSONS

SHORT CAKES AND APPLE DUMPLINGS

From the opening of the strawberry season until peaches are gone, there is no dessert that seems to fit every occasion or is more generally liked than the short cake. The rest of the year its place is filled very acceptably by the apple dumpling. These recipes I have tested many, many times, and I can guarantee success if directions are followed closely.

Nevada Briggs

Strawberry Shortcake

For small families, half of this recipe will be sufficient.

2 1/2 cups sifted pastry flour

2 1/2 level teaspoonsful K C Baking Powder

1/2 teaspoonful salt

1/2 cup shortening

About 1 1/2 cup milk

Butter

Between 1 and 2 cups granulated sugar

1 cup or more vanilla cream

Hull, wash and drain the berries; reserve a few choice berries to garnish the top of the cake; cut the rest in halves and mix with the sugar. Beat the cream and set aside to chill. Sift together, three times, the flour, baking powder and salt; work in the shortening; then mix to a soft dough with the milk. Spread the mixture in two layer cake pans. Bake about twenty minutes. Turn one cake out on a hot plate, spread liberally with butter, pour on part of the berries; cover with the second cake, also spread with butter, pour over the rest of the berries and put the whipped cream above, with the whole berries here and there. Other fruits, such as pineapple cut in small bits, bananas, peaches or any kind of berries may be used with the pastry. To insure a flaky pastry have all ingredients cold and mix very lightly.

Raspberry Shortcake

2 cups sifted pastry flour 1/2 teaspoonful salt

2 level teaspoonsful K C Baking Powder

1/2 cup butter

1/2 cup milk or more as needed

1 cup raspberries 1/2 teaspoonful salt

1/2 cup sugar

Raspberry Sauce.

1/2 cup butter 1 cup sugar

1 cup raspberry pulp

Sift together, three times, the flour, salt and baking powder, and work in the butter. Beat the pulp; add the milk and stir to a dough, using more milk if needed. Divide into two parts; knead the larger part slightly and roll to fit a pan; spread over it the berries, salt and sugar; knead the second part and place on top of the berries. Bake about half an hour. Serve hot with the sauce. For the sauce, cream the butter; add the sugar; then gradually the mashed-and-sifted berry pulp; and lastly, the white of eggs, beaten dry. This makes a light, fluffy sauce. Try this pastry and sauce with peaches, blackberries, pineapple or apples.

Asparagus Shortcake

2 1/2 cups sifted pastry flour

1/2 teaspoonful salt

2 1/2 level teaspoonsful K C Baking Powder

Sweet milk

1 large bunch asparagus

1/2 cup butter

1/2 cup flour

1/2 cup butter (another)

2 hard-cooked eggs

Make dough as for Strawberry Short Cake. Knead slightly and roll to fit a layer cake pan. Bake about twenty minutes. Split the cake and spread each half with butter. Have the tender portion of the asparagus cut in inch lengths, cooked tender. Make a drawn butter sauce of the flour, salt, butter and asparagus liquid, heating in the last fourth cup of butter after the sauce is taken from the fire, and add the asparagus. Pour a layer of the asparagus and sauce over one layer of the cake; set the second layer in.

Baked Apple Dumplings

A New Way

1 1/2 cups sifted pastry flour

1/2 cup shortening

1/2 teaspoonful salt

3 level teaspoonsful K C Baking Powder

About 1 1/2 cup milk

Apples

Fill the cups of a buttered muffin pan with pared and sliced apples, sprinkle with salt and pour two or three tablespoonsful of water into each cup. Sift together, three times, the flour, salt and baking powder; work in the shortening, and mix to a soft dough with the milk. Drop the dough from a spoon upon the apples in the cups, smoothing the tops. Bake about twenty-five minutes. Invert the pan on a large serving dish. Put a spoonful of hard sauce over the apple in each dumpling and finish with a grating of nutmeg. Other fruit, such as peaches or cherries, may be used in the same way, serving with cream or hard sauce.

Hard Sauce With Egg

Beat 1/2 cup of butter, 1 1/2 cups powdered sugar and 1 egg until creamy and smooth, flavor and serve as a sauce.

Helpful Hints on Baking

For mixing pastry for Short Cake and Apple Dumplings, mix very lightly, only enough to mix the moisture with the dry flour, using a knife or fork for mixing, never a spoon, for a spoon packs and mashes the batter. Pastries should be loose and flaky and to insure this, keep the batter loose in mixing; it should have a rough appearance before baking.

For baking short cake pastry have a moderate oven to start, giving the pastry time to loosen and rise before baking.

Always spread with butter as soon as taken from the oven.

Never put fruit on pastry until ready to serve to avoid soaking with fruit juices.

In all baking be assured of success every time by carefully measuring each ingredient. No guess cook ever succeeds every time. It requires a certain amount of every article named in a recipe, and an over or under measure is sure to make a failure of the recipe.

K C Baking Powder is a wonderful aid to successful baking. It is always uniform in strength and action, giving uniformly perfect results. Use K C Baking Powder according to directions—never more than the recipe directs. K C will keep perfectly for years, the last spoonful being as strong as the first. I have used K C Baking Powder for years under all circumstances in both high and low altitudes. In high altitudes there is greater trouble with cakes falling, but where a double-raise baking powder, such as K C is used there is absolutely no danger of food falling.

Joe Ney and several others received about a hundred plants of the spineless cactus from the Burbank experimental farms of California this week and will experiment with the growing of this variety of the plant here. If successful it will be a great boon to the stockmen.

Commissioners' Court.

Commissioners' Court convened here Monday in the regular August term with all members of the Board and the usual officers in attendance.

From the proceedings we condense the following:

The Quarterly Report of County Treasurer L. E. Heath was approved. The report shows cash on hand as follows:

General fund.....\$11,323.31
Road fund.....10,397.05
Bridge fund.....
Road precinct 4 fund 22,948.25

Total.....\$44,668.61

There are invested for the Medina County permanent school fund in various bonds the sum of \$31,000.

The county's bonded indebtedness is 37 bridge bonds amounting to \$18,500.

Various scalp bounty claims were approved.

The returns from the Amendment election held July 19th were canvassed officially.

Various quarterly reports of county and precinct officers were approved.

The court will be in session until this afternoon.

Paint And Not

Paint was never before so high as last year; about \$2.25 a gallon. Devotee and a half dollar less for trash.

What is trash? It looks like paint and pretends to be paint, but isn't worth painting. It costs a painter's day's work to put on a gallon of paint, good or bad; and a painter's day's work is \$3 or \$4.

Add that to the price of a gallon. That is the cost of a gallon. Devotee is \$5 or \$6 a gallon; and trash a half-dollar less.

But Devotee is all paint and more too; you add oil to it; a gallon is 5 or 6 quarts of perfect paint for the painter's pot. But trash is three-quarters two-thirds or half paint; you pay a half-dollar less for nobody-knows-what-it-is.

10 gallons Devotee is enough for the average job; it takes 15 to 20 gallons of trash. And the wear same way. Unfortunately, they look alike when first put-on.

DEVOTE

Holloway Bros. sell it.

Loses Arm.

A nine-year old son of Bill Poe, while playing around the Fusselman gin about five o'clock Monday evening, got his left arm caught in the saws of the gin and had the member cut entirely in two, leaving his hand in the gin. Only the prompt action of Mr. Fusselman in snatching him away saved him from being drawn into the saws and his body cut to pieces.

Will Miller bound the injured member with a piece of fish-cord and he was placed in an automobile and rushed to a surgeon who amputated the arm above the elbow, and the young man is getting along as well as could be expected.

TESTED SCHOOL SHOES

Look Better—Fit Better—Wear Better

"T" and "D" school shoes have become famous for their style, finish and long wearing qualities. Four pairs will outwear five pairs of ordinary shoes made for children's wear.

Many shoemakers yield to the temptation to use substitutes for leather in children's shoes, because of the high price of leather, but we have built up our business by selling honest leather shoes.

Cut up a pair of "Tess and Ted" or any other "Star Brand" shoes and you will find that they have sole-leather heels, soles and counters. No substitutes for leather are ever used. See No. 3120—a new model for boys.

Pure Shoe Legislation is pending in Congress and many states to protect you against fraud. We heartily endorse it. The rights of 100 million consumers are greater than those of a few hundred manufacturers.

"Tess and Ted" school shoes are made in a hundred different styles for boys and girls of all ages. They are designed to properly fit the foot of growing children.

"Tess and Ted" school shoes are for sale by 20,000 good merchants. Don't just go into ANY store and ask for them, but come direct to our store. We are specializing on these famous shoes.

The name on the sole and the "Star" on the heel insure honest values.

"Star Brand Shoes Are Better."

YOU who require the best and

purest medicine see that you get Foley's Honey and Tar Compound in preference to any other for all coughs, colds, croup, asthma, hoarseness, tickling throat and other throat and lung troubles. It is a strictly high grade family medicine, and only approved drugs of first quality are used in its manufacture. It gives the best results, and contains no opiates. A. R. Ellison, Taylor, Wis., says: "I always use Foley's Honey and Tar for coughs and colds because I find it a sure cure and a safe one."

Remarkable Cure of Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by W. H. Windrow.

The Mexican Situation

The trouble in Mexico has developed one fact of importance in the U. S., and that is that both the Federals and Constitutionists are firm believers in Hunt's Lightning Oil the great American remedy for neuralgia, rheumatism, cuts, burns and other aches and pains. No wonder, since it makes the pain go away almost at once. All druggists sell it in 25c and 50c bottles.

Scratching For Fun

We would have great sympathy for those who have to scratch continually, if there wasn't a remedy for the trouble, but as Hunt's Cure is Guaranteed to cure or money refunded, it would seem that those who scratch do so just for the fun of it. It's a special remedy for Itch, Eczema, tetter, ringworm, etc.

The daughter of A. Mitchell, Bagdad, Ky., had a bad case of kidney trouble and they feared her health was permanently impaired. An impromptu speech is apt to be shorter, we observe, in our search for the silver lining.

HEALTHY LIVER MAKES BEAUTY

Famous Actress Finds that a Healthy Liver is Necessary to Good Looks and Youthfulness.

One of the best known women of the American stage is writing a series of articles on the preservation of beauty. She attaches great importance to keeping the liver active at all times, and she is right. Neither good looks nor happiness will stay long with any man or woman who lets the liver get lazy and sluggish.

It is not always safe to take calomel, the old liver remedy. Doctors agree that it is a very uncertain drug. But W. H. Windrow's drug store has a remedy for sale that they guarantee to take the place of calomel absolutely and still be harmless, causing no restriction of habit or diet. This remedy is Dodson's Liver Tonic.

Dodson's Liver Tonic is a pleasant tasting vegetable liquid, but it starts the liver gently and surely and relieves constipation and biliousness so promptly that it has become a dependable remedy in thousands of homes in the United States. There are scores of families in this vicinity who will not be without it in the house and who would not think of starting on a trip without a bottle of it.

W. H. Windrow has sold so much Dodson's Liver Tonic that they are convinced of its merit and will give any person his 50 cents back, who buys a bottle and does not find that it takes the place of calomel to perfection.

For Sale.
